

MISSION STATEMENT

Berkshire Organics is dedicated to providing delivery service of local and organic food to area residents and businesses throughout Berkshire County. Our store features only locally-made sustainable groceries and certified organic products so customers can shop with confidence and trust their food source.

HOW IT WORKS:

Berkshire Organics works with LOCAL organic growers to bring you the freshest seasonal produce available from the Berkshires and surrounding area.

During the winter months, we work with one of the oldest certified organic farms in Mass. who obtains organic produce from small family farms along the East Coast of the U.S. Our goal is to obtain produce as close as possible reducing the distance from farm to table.

We offer baskets in several sizes to suit singles, couples, families and businesses. The content of each basket is listed on our website and updated weekly. The produce available depends on what the organic farmers are harvesting that particular week.

We also work with an organic supplier to offer items not grown in New England. You can make substitutions or changes to your basket. Not interested in a basket? You can also order items A La Carte such as Fruits, Veggies, Groceries, Farm Fresh Dairy, Breads, Baked Goods and Much More! Please visit our website to learn more.

There are no contracts or obligations with this service.

Market

We are committed to carrying products made by smaller, independent companies. We strive to stay away from any brands owned by large conventional corporations.

We do the research for you! We look at every product to see how closely it meets these standards:

- Local & Organic/Sustainably Produced
- Certified Organic
- GMO Free
- Responsibly/Ethically Raised/Harvested
- Regional (New England Area)
- Small/Artisinal
- Privately Owned
- Eco-Friendly/BPA-Free Packaging
